I. Policy

The Organisation strives to promote highest ethical standards at all levels. Towards this end, the Organisation maintains a workplace that facilitates the reporting of potential violations of Corporate Policies and applicable laws. It is the Organisation's policy that staff members with issues or concerns regarding ethical or compliance matters have appropriate channels through which to report their issues or concerns. Following receipt by the Organisation, such reports are considered and addressed in an appropriate manner.

1. Fundamental Elements of the Policy

- i. **Victimisation:** The Organisation recognises that the decision to report a concern can be a difficult one to make, not least because of the fear of reprisal from those responsible for the misconduct. The Organisation has a zero-tolerance policy against reprisals and will not tolerate harassment or victimisation, and will take firm action to protect staff members who raise a concern in good faith.
- ii. **Confidentiality:** The Organisation will endeavour to protect an individual's identity at all stages in any internal matter. It must be appreciated that while the Organisation can provide internal confidentiality, however, the investigation process may inadvertently reveal the source of the information. Also, the Organisation cannot guarantee internal confidentiality will be retained if external legal action arising out of any civil or criminal proceedings flows from the disclosure.

The Organisation is not accountable for maintaining confidentiality where the Whistleblower has told others of the alleged misdemeanour.

2. Procedure

a. Disclosure

- i. Every disclosure made under this policy shall be treated as confidential disclosure and shall be made before the Competent Authority.
- ii. Every disclosure shall be made in good faith and not made maliciously or for personal gain. A person making the disclosure shall make a personal declaration stating that he/ she reasonably believes that the information disclosed by him/ her and the allegation contained therein is substantially true.
- iii. Every disclosure shall be made in writing or by electronic mail (email) message in accordance with the procedure as may be prescribed and contain full particulars, and be accompanied by supporting documents, or other materials, if any.
- iv. The disclosure made under this Policy should be factual and not speculative or in nature of conclusion and should contain as much specific information as possible to allow for proper assessment of the nature and extent of the concern and the urgency of preliminary investigations. In brief, the following information should be included in the disclosure (whistleblowing) report:
 - What has happened? (please be as detailed as possible in your description).
 - When and where did it happen?
 - Who was involved?
 - Can this be expected to happen again? If so, when and where?

- Who else knows about the above or has access to relevant information?
 - Is there any documentation or are there other facts that can be used as evidence?
 - Is there any other information that may be relevant or necessary for the investigation?
- v. All individuals wishing to disclose a concern are encouraged to put their names and other contact details in the whistleblowing report. Concerns expressed anonymously are sometimes difficult to pursue if other attributable sources or evidence cannot be found. Under anonymous disclosures, it may not be possible to interview the Whistleblowers and grant him/ her protection under this Policy.

If any staff member or any other person is not willing to disclose the misconduct in writing, he/ she may get his/ her statement recorded by the Competent Authority. The Competent Authority shall maintain the anonymity about the identity of the disclosing individual and under no circumstances would discuss the same with any unauthorised person. Requests for anonymity of the individual disclosing a concern will be honoured to the extent possible within the legitimate needs of investigations.

The Organisation may consider anonymous disclosures keeping in view the following factors:

- the seriousness of the issue
 - credibility of the report
 - likelihood of obtaining confirmation of the allegations evidentially or from other attributable sources.
- vi. The contact details of the Competent Authority are as under:

It will be the primary responsibility of the Competent Authority to conduct the preliminary investigation. ***The staff member or any other person (Whistleblower) who discloses the concern should not attempt to interview or interrogate any person related to disclosure.***

The Competent Authority shall, upon receipt of the complaint and concealing the identity of the Whistleblower, or staff member in the first instance, make discreet inquiry, in such manner and within such time as may be prescribed, to ascertain whether there is any basis for proceeding further to investigate the disclosure.

The Competent Authority shall make every effort to protect the rights and the reputations of everyone involved in report of misconduct, including the individual who in good faith alleges perceived misconduct, as well as the alleged violator(s).

If the Competent Authority, either on the basis of preliminary investigations or on the basis of the disclosure itself without any investigations, is of opinion that disclosure report is not credible or is not a report of misconduct or there are no sufficient grounds for proceeding with the inquiry, he

shall document this determination. The Competent Authority's documentation shall include support for the determination.

If the preliminary investigation substantiates the misconduct, the Competent Authority will prepare an outcome report and send it to the management with a copy to Chief Mentor for further investigation.

The Competent Authority shall complete the preliminary investigation and submit the incident report not later than 15 days from the date of report of disclosure. In case Competent Authority is not able to complete and submit the investigation report within in 15 days, she may seek extension from management. Final Investigation

After completion of the preliminary investigation, CKD management may at its discretion, if it so desires, request further information to enable a proper assessment. This will include the collection and review of all relevant documents, interviews of people who can provide information, and an interview with those alleged to be involved in misconduct.

While seeking additional information, the management (including the Head of Department (HoD), as appropriate) shall not reveal the identity of the Whistleblower as well as the alleged violator(s). If the management is of the opinion that for the purpose of seeking additional information from his/ her HoD, it is necessary to reveal the identity of the Whistleblower, it may, with the prior written consent of the Whistleblower, reveal the identity of the Whistleblower to his/ her HoD for the said purpose. The HoD shall not, in any case, reveal the identity of the Whistleblower as well as the alleged violator(s). An opportunity of being heard shall be provided to the Whistleblower, if the Whistleblower so desires.

Once the investigations are complete, due & appropriate action, which may include disciplinary action, civil or criminal action or closure of the matter if it is proved that a case of misconduct cannot be made, etc., shall be recommended by the management. The management shall record such recommendation for disciplinary, civil or criminal action or closure of matter in the closure report.

Any investigation conducted under this Policy shall be completed within 30 days of receipt of disclosure and shall be done in an impartial, fair and thorough manner. Every recommendation for disciplinary action shall be binding on the individual(s) against whom the allegation of misconduct has been proved.

If any person is being victimised or likely to be victimised on the ground that he had filed a complaint or made disclosure or rendered assistance in investigation/ inquiry under this Policy, he may file an application before the Competent Authority seeking redress in the matter, and such authority shall take such action, as deemed fit and may give suitable directions to Head – Human Resources and/or concerned HoD, as the case may be, to protect such person from being victimised or avoid his victimisation. Every direction shall be binding on the individual(s) against whom the allegation of victimisation has been made.

4. Penalties

- a. While it will be ensured that genuine Whistleblowers are accorded complete protection from any kind of unfair treatment as herein set out, any abuse of this protection will warrant disciplinary action.
